DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: the specification does not contain a Brief Description of the Drawings heading or section. MPEP 608.01(f). Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: what exactly constitutes "purifying and separating" in step b. This is a key element of applicant's process, yet it is unclear just how such "purifying and separating" might be accomplished. Applicant, in fact, has not specified any steps at all, instead merely specified the desired end result of such unknown steps i.e. purifying and separating.

The remaining claims are also rejected under 35 USC 112, second paragraph, as claims which depend from indefinite claims are also indefinite. *Ex parte Cordova*, 10 USPQ 2d 1949, 1952 (PTO Bd. App. 1989).

Allowable Subject Matter

The subject matter of claims 1-7 and 11-23 would be allowable once the 112 rejection outlined above has been overcome. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art appears to be US 5,583,260, cited by applicant in the IDS, which teaches a method for influencing the cis/trans ratio of isophoronediamine in its synthesis from isophoronenitrile by using two temperature steps (abstract). The cited prior art neither teaches nor suggests the instant iterative isomerization process. Nor would it have been obvious to one of ordinary skill in the art at the time of the invention to modify the teachings of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.
